The world's fastest test for detecting
Legionella pneumophila sg1

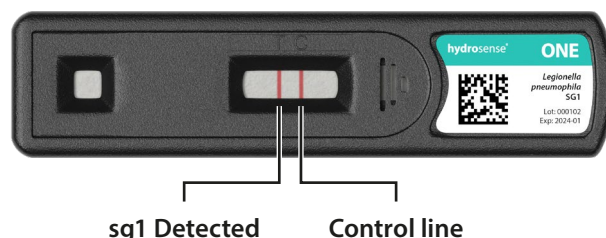

Hydrosense ONE Multi Legionella Industrial Kit

Our Legionella industrial kit is ideal where repeated sampling of the same water outlet is required and for guidelines dictating action for 1000 CFU/L and above. A perfect choice for detecting *Legionella pneumophila* serogroup 1 (sg1), the cause of around 90% of Legionnaires' disease.

Simply attach our outlet adaptor and leave it in place ready for the next scheduled testing according to your water management program. The kit includes visual step by step instructions and a visual reference to indicate the level of infection via a Hazard Index scorecard.

Ideal for high-risk areas such as industrial cooling towers, large water systems in hotels, healthcare, residential and commercial properties.

RAPID TEST TYPE	LIMIT OF DETECTION	PART NUMBER
ONE Multi Industrial	1000 CFU/L (plus 10,000 CFU/L verified Hazard Index rating)	100264
