

25
MINUTES

The world's fastest test for detecting
Legionella pneumophila sg1-15

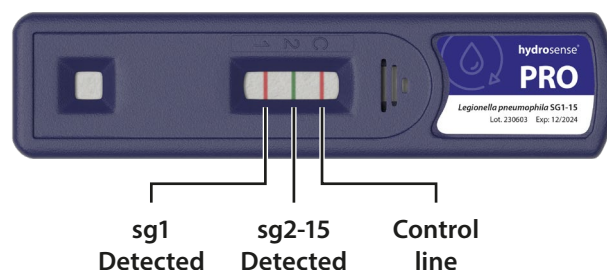

Hydrosense PRO Ultra Legionella Water Test

The Hydrosense PRO Ultra Legionella Water Test is our most comprehensive and sensitive testing solution designed for water safety. This advanced one-time-use kit uniquely detects all serogroups (1-15) of the most dangerous Legionella species, *Legionella pneumophila* in just 25 minutes.

Easy-to-use test; it can be carried out by anyone in any setting and requires minimal training. Our visual instructions provide a simple step by step guide.

Ideal for cooling towers, water storage units, decorative fountains, taps, showers, spas, swimming facilities, and more, this solution offers exceptional coverage and reliability. Its unparalleled sensitivity and comprehensive detection capabilities make it the preferred choice for high-risk areas, ensuring the highest level of Legionella detection.
